

The Arlington Resort Hotel & Spa

Job Description

Job Title: Plasterer/Special Projects
Department: Property Operations

Reports to: Chief Engineer
Classification: Non Exempt

Job Summary

The Plasterer will preserve and maintain the building's historic elements plastering walls as assigned.

Job Responsibilities

- Prepare walls and ceilings for stucco and cement by cleaning, taping and fixing any holes or cracks
- Create a mortar mix that is perfect for the particular application
- Coat walls with plaster and go over the undercoat to make sure the final coat is correct and requires few touchups
- Design the desired texture and create ornamental plaster, recreating original designs when necessary
- Construct scaffolding so plaster can be applied to ceilings and other hard-to-reach places and re-position it as needed
- Hang sheets to protect doors and windows from wet plaster and remove light switch covers
- Remove all tools and scaffolding from the job site and ensure high cleanliness standards are maintained at the end of every workday

Requirements

- 2 years of Plastering experience required
- Must be able to frequently stand, walk, bend, stoop, and reach
- Must be able to lift up to 50 lbs.
- Must be able to work in a hot and/or cold environment. Not all work will be performed in a temperature-controlled environment

This is a safety-sensitive position

I understand and am able to perform the functions of my job.
